

## TWO HEADS ARE BETTER THAN ONE!

### When working together for your future

The Kidsgrove Sixth Form College is a partnership of powerful forces working together for educational excellence in Kidsgrove. Our mission is to provide an increasingly broad and varied programme of courses to meet the needs of all students in the area. With that in mind, our college strives to be innovative and is frequently at the forefront in launching new qualifications and initiatives.

Clough Hall Technology School

With some 300 students, we are big enough to offer a full range of courses but small enough to provide the individual guidance and support needed to ensure maximum success. Our exciting new Kidsgrove Learning Zone adds a unique dimension to each student's chosen course and creates opportunities to develop self-confidence, maturity and a range of skills essential for success in the world of work and success as an individual.

In Kidsgrove, we listen first and plan our curriculum to address local needs and student aspirations: we listen to students and parents, we listen to universities, we listen to local and national politicians and civil servants and we listen to exam boards. We listen to employers and work with them to predict employment trends and secure real jobs for our students.

A full range of sporting, cultural and social activities are on offer for those who wish to take part. As joint leaders of the Kidsgrove Sixth Form College, we are guardians of the ethos of success embedded in it and we give our personal undertaking that we will refine and improve the service offered at every opportunity in our efforts to deliver a personal service and the best education for our community. We look forward to you joining with us in shaping an exciting future.
